

APRIL 17-26, 2020
CAMBRIDGE
SCIENCE
FESTIVAL!

2020 Curiosity Challenge Guidelines

Art/Creative Writing Entries: Students between the ages of 5 and 14 are invited to submit original artwork or an original piece of creative writing answering the question:

What am I curious about?

Creative writing can be a poem, short story or an essay (maximum of 500 words). All two-dimensional artwork is acceptable such as drawing, painting, photography and computer generated work (must fit on a 9" x 12" page). Artwork/writing combinations are also acceptable.

We will not be able to return the artwork.

By entering the challenge you are giving us permission to reprint the entries on our website and in printed material.

All submissions must include:

- Please label each entry on the **back of the artwork** with the student's name, home address, school, grade number, and teacher's name and an email contact.
- All artwork should fit on a 9" x 12" page. Bold colors in artwork are most effective and reproduce best (magic markers work well).

Deadlines: All artwork and written entries are due no later than ****Friday, February 7, 2020****

Students may submit entries to any Cambridge Public School, Cambridge Public Library branch or mail to:

**The Curiosity Challenge, Cambridge Science Festival
c/o MIT Museum
265 Mass Ave., Cambridge MA 02139**

Additional information: please contact Joanne Kalell, Curiosity Challenge Coordinator, at jkalell12@yahoo.com.

Dare to take the 2020 Curiosity Challenge!
